

## **MEDITECH Financials Support**

GRA was engaged to ensure support of all financial modules and continues to provide support on-site for the organization two to three days per week. GRA's consultant offers consistent and effective problem-solving skills and has implemented many new processes over the past six years—his strong accounting and MEDITECH knowledge being put to good use. The GRA consultant has implemented e-billing for WSIB and interprovincial claims for the three corporations he supports at this organization.
